4. FIRST AID MEASURES

4.1 Description of First

Aid Methods:

- **Inhalation**
 - **Skin Contact**
 - **Eye Contact**
 - **Oral Ingestion**
- Move to fresh air
 - Brush off excess material and wash skin thoroughly with soap and water.
 - Flood the eye with plenty of water. If any symptoms persist obtain medical attention.
 - Drink large amounts of water to dilute. Vomiting may occur but should not be induced. Obtain medical attention if symptoms persist.

4.2 Most important symptoms and Effects

None known. See Section 2.3.

4.3 Indications of Immediate Medical

None known

5 FIRE AID MEASURES

- 5.1 Extinguishing Media** Carbon dioxide, dry powder, foam. Keep container and surroundings cool with water spray. Great care should be taken using water/jet spray.
The formation of dust by high pressure water jet, should be avoided.
- 5.2 Special Hazards Arising from Substance** Not known
- 5.3 Advice for Firefighters** Fire fighters should wear self-contained positive pressure breathing apparatus

6. ACCIDENTAL RELEASE MEASURES

- 6.1 Personal Protection** Wear appropriate protective clothing – see Section 8.
Ensure adequate ventilation and control of dust to avoid forming a dust-air mixture.
- 6.2 Environmental Precautions** Do not discharge onto the ground or into watercourses.
- 6.3 Methods for Cleaning Up** Normal clean-up procedures as for any agricultural commodity.

7. HANDLING AND STORAGE

- 7.1 Precautions for Safe Handling** Avoid generating excessive dust. Avoid excessive contact with product
Use appropriate protective clothing as indicated in Section 8. Wash hands after use.
- 7.2 Conditions for Safe Storage** To guarantee quality avoid heat, moisture and strong odours during storage. Pellets should not be exposed to temperatures above 20 °C (68 °F) since it is possible that gases are formed from hop constituents. The resulting pressure increase may cause bursting of the foils. Consequently the pellets will be exposed to air and oxidation resulting in a considerable deterioration of quality. Suitable storage containers are thick gauge laminated foil bags, stainless steel, and lacquered mild steel.
- 7.3 Specific End Uses** The substance is manufactured for use as a food ingredient and for such uses is not subject to registration via REACH (Regulation (EC) No.1907/2006). It should be used in accordance with applicable food legislation.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters Not applicable.

8.2 Exposure Controls:

- **Engineering Controls** - Provide adequate ventilation
- **Eye/Face Protection** - If in danger of generating dust, wear goggles.
- **Hand Protection** - Gloves possible (not mandatory)
- **Skin Protection** - Gloves possible (not mandatory)
- **Respiratory Protection** - If in danger of generating dust, wear a facemask
